PROFILE

Dedicated and detail oriented software developer. Seeking a role to enhance and explore my technical knowledge in a reputable organisation. Highly motivated to help the organisation strengthen its customer relationship by identifying prospects. An enthusiastic experience candidate who is self starter and motivated and capable to work under pressure .

WORK EXPERIENCE

Frontend Developer

Apixlabs

02/2023 - 11/2023

- Experience in developing responsive user interfaces using **React.js** for a variety of web applications.
- Implemented state management solutions such as **Redux** or **Context API** to efficiently manage application data.
- Collaborated with designers and backend developers to integrate frontend interfaces with backend systems via **RESTful APIs**.
- Utilized modern **JavaScript features** and **ES6+ syntax** to write clean, modular, and maintainable code.
- Conducted code reviews and provided constructive feedback to team members to ensure code quality and consistency.
- Optimized application performance by identifying and resolving bottlenecks in rendering, data fetching, and other critical areas.
- Experience in debugging and performance improvement in React JS environment.

Application Developer

Accenture

06/202210/2022

- Carried out various administration, and support activities.
- Logging categorization, prioritization, initial investigation, diagnosis, escalating, resolving, and closing incidents and service requests.
- User account creation, validation, deletion, password, reset, and updating user roles and groups on SAP applications.
- Active directory, password reset, adding packages, enabling and disabling accounts.
